PROFESSIONAL SUMMARY

Systems and Computer Engineering undergraduate at UNAM (4 semesters to completion) with a solid foundation in full-stack web development, native Android applications, Linux environments, and ISO/IEC 27001 information security principles. Developer of open-source system tools and institutional academic platforms with practical experience in client-server architectures, RESTful APIs, and Git version control. Strong analytical, communication, and problem-solving skills. Available for Software Engineering Internships / Trainee positions.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Kotlin, Java, Python, C++, SQL, Bash Scripting
Frontend & UI: React, HTML5, CSS3, QML (Qt), Tailwind CSS, Responsive Design
Backend & Databases: Node.js, Express, RESTful APIs, PostgreSQL, MySQL, Firebase (Firestore, Auth)
Tools & Environments: Git, GitHub, Linux (Hyprrland, Shell Scripting), Docker, Android Studio, VS Code
Methodologies & Security: ISO/IEC 27001 Fundamentals, Scrum, OOP, Clean Code

FEATURED PROJECTS

- UNAMConnect** | *TypeScript, React, Node.js, SQL, REST API* 2026
- Comprehensive web platform for university student lifecycle management, peer tutoring, and academic analytics.
 - Engineered peer tutoring modules and student dashboards with robust client-server architecture and RESTful endpoints.
 - Implemented relational database persistence ensuring optimized queries and data integrity.
- UNAMRide** | *Kotlin, Java, Android SDK, Firebase (Realtime & Auth)* 2025 – 2026
- Native Android carpooling application designed to connect university students for safe and eco-friendly commuting.
 - Integrated real-time route synchronization, user authentication, and geolocation mapping APIs.
 - Built modern and adaptive user interfaces following Material Design 3 guidelines.
- Omarchy VibeZ & Projector Cast** | *QML, JavaScript, Bash, D-Bus MPRIS, Miracast* 2026
- Developed native Linux system widgets featuring MPRIS media controls, live album art caching, and background session managers.
 - Created 1-click Miracast display mirroring utility with aspect-ratio presets, HiDPI scaling, and 8-language localization.

EDUCATION

Universidad Nacional de Moquegua (UNAM) Ilo, Peru
B.S. in Systems and Computer Engineering (4 semesters to graduation) 2020 – Present

CERTIFICATIONS & TRAINING

Workshop ISO/IEC 27001: Information Security Management Hacker Mentor Academy
Cybersecurity fundamentals, risk assessment methodologies, and compliance standards Apr. 2024

V International Congress of Systems & Computer Science (CISCCOM) UNAM
15 academic hours on emerging technologies, cloud computing, and software design Nov. 2022

Computer Science Week – IV Edition UNSA
20 academic hours of specialized lectures on computing and algorithms Nov. 2021

WORK EXPERIENCE

Sales Promoter Ilo, Peru
ROM Outsourcing S.A.C. May 2024 – Aug. 2024

- Managed direct customer advisory, negotiation, and sales target fulfillment in fast-paced retail operations.

Sales Advisor, Trainee & Cashier Ilo, Peru
Inversiones Rubin's S.A.C. (Footloose) Feb. 2023 – Mar. 2024

- Operated transactional POS systems, handled cash reconciliation, and improved customer retention.

Customer Service Representative (Floor) / Bank Agent Ilo, Peru
Supermercados Peruanos S.A. (Plaza Veá) / Multiservicios Franchesco Dec. 2021 – Apr. 2022

- Processed banking transactions via Kasnet agent, resolved customer inquiries, and coordinated under pressure.

Hardware & Mobile Device Instructor Ilo, Peru
Instituto Técnico Interamericano Apr. 2019 – Oct. 2019

- Delivered hands-on laboratory lectures on electronic component diagnosis, circuit architecture, and hardware troubleshooting.
